

# personification using the dialogical self in psychotherapy and counselling

Wed, 05 Dec 2018 23:48:00

GMT personification using the dialogical self pdf - The dialogical self is a psychological concept which describes the mind's ability to imagine the different positions of participants in an internal dialogue, in close connection with external dialogue. The "dialogical self" is the central concept in the dialogical self theory (DST), as created and developed by the Dutch psychologist Hubert Hermans since the 1990s.

Dialogical self - Wikipedia - The psychology of self is the study of either the cognitive, conative or affective representation of one's identity or the subject of experience. The earliest formulation of the self in modern psychology derived from the distinction between the self as I, the subjective knower, and the self as Me, the object that is known.. Current views of the self in psychology position the self as playing ... Psychology of self - Wikipedia -
